

4CEE

COMPREHENSIVE.
CONSOLIDATED.
INTELLIGENT.

Let's be honest,
Risk Assessments are tough, cumbersome and complicated.

But do they really have to be this?

With an efficient process,
you can eliminate unnecessary and extra effort.
As a result you get to focus your experience
and resources on what truly matters.

**SIMPLIFY INFORMATION SECURITY
WITH AUTONOMOUS RISK ASSESSMENT**

Cloud based SaaS Security Service,

4Cee is a comprehensive InfoSec risk management tool.

Whether you are identifying risks, mitigating them or tracking them across your organization, the streamlined in-built workflow ensures you never miss a step.

Here's how 4CEE works

4CEE comes with

**ISO 27001 & ISO 31000
compatible methodology**

**Granular role based
access control**

**Comprehensive &
up-to-date threat &
vulnerability database**

**Secure and user
friendly interface**

**Multiple filters
for easy risk reporting**

An effective risk assessment requires risks to be identified correctly.
At the core of **4CEE is an exhaustive database of threats and vulnerabilities.**
Compiled with experience of over two decades in the industry,
the database is regularly updated to keep with the
latest threats on the InfoSec horizon.

**Avoid duplication of
assets, risks and
mitigation decisions**

**Lock assessments
for version control
management**

**Focus on accountability
with departmental
risk reports**

Here's what you get with 4CEE

Auto populated threats & vulnerabilities database
